

PRELIMINARY PROGRAM OF THE
7TH ANNUAL MEETING OF THE EFOR NETWORK
7TH - 8TH MARCH 2016
FIAP JEAN MONNET, 30 RUE CABANIS, 75014 PARIS

GENERAL ARCHITECTURE OF THE MEETING

7TH MARCH 2016

Scientific Session 1

Scientific Session 2

Technologic Session 1

Technologic Session 2

8TH MARCH 2016

WS1

WS2

WS3

WS4

WS5

WS6

WS7

WS8

PRELIMINARY PROGRAM OF THE
7TH ANNUAL MEETING OF THE EFOR NETWORK
7TH - 8TH MARCH 2016
FIAP JEAN MONNET, 30 RUE CABANIS, 75014 PARIS

7th March 2015

08h45-10h30 *Registration, Welcome coffee and sponsors booth (hall)*

10h00-10h15 *Introduction of the meeting by the coordination of EFOR*

SCIENTIFIC SESSION (Room 1)		SCIENTIFIC SESSION (Room 2)	
Stem cells and model species organized by Bertrand Pain		Preclinical models of stroke organized by Cyrille Orset (IN PROGRESS)	
10h30-11h00	<i>Invited speaker, coming soon</i> Brigitte Galliot (Univ. of Geneva, Switzerland): Epithelial plasticity, a path to fitness, regeneration and slow aging	10h15-11h00	Denis Vivien (INSERM, France):
11h00-11h30	Jean-Jacques Lareyre (INRA, France): Ultrastructural, functional, and molecular characterization of a spermatogonial stem cell subpopulation in zebrafish (<i>Danio rerio</i>)	11h00-11h45	Arthur Liesz (LMU, Germany):
11h30-12h00	Joshua Brickman (DanStem Centre, Denmark): Potency arising from conflict - embryonic stem cell identity and lineage specific transcription	11h45-12h15	Emmanuelle Canet-Soulas (INSERM, France): to be confirmed
12h00-12h30		12h15-12h45	Cyrille Orset (INSERM, France):

12h45-14h30 *Lunch (Cafeteria) and sponsors booth (hall)*

14h30-15h30 *Plenary session (Room 1)-sponsors presentations*

New England Biolabs

TECHNOLOGIC SESSION (Room 1)		TECHNOLOGIC SESSION (Room 2)	
Imaging, image analysis and databases: Novel techniques in Image acquisition and treatment organized by Barbara Rizzi & Arnim Jenett		Genome editing and ethics organized by Ivan Balansard	
15h30-16h00	Emmanuel Beaurepaire (CNRS, France): Multicolor and multicontrast nonlinear microscopy of developing tissues	15h30-16h00	Ivan Balansard (CNRS, France): General introduction
16h00-16h30	Ignacio Arganda-Carreras (Universidad del País Vasco, Spain): Numerical evaluation of whole <i>Drosophila</i> adult brain templates: a group-wise atlas solution	16h00-16h30	François Lachapelle (INSERM, France)
16h30-17h30	<i>Coffee break and sponsors booth (hall)</i>		
17h30-18h00		17h30-18h00	Erwan Bezard (Univ. Bordeaux, France): Towards transgenic non-human primates...
18h00-18h30	Ralf Mikut (Karlsruhe Institute of Technology, Germany): Automated image analysis of in vivo processes in model organisms - design of analysis pipelines, software, and applications	18h00-19h00	Round table
18h30-19h00			

PRELIMINARY PROGRAM OF THE
7TH ANNUAL MEETING OF THE EFOR NETWORK
7TH - 8TH MARCH 2016
FIAP JEAN MONNET, 30 RUE CABANIS, 75014 PARIS

8th March 2016-Zebrafish WORKSHOP

08h45-09h15 *Registration*

09h15-09h30 *Introduction by the organizers*

Thematic 1 : Zebrafish: a model system for studying locomotor system related diseases

09h30-10h00 Coralie Fassier (IBPS, France): Spastin at the crossroads between development and degeneration of motor circuits

10h00-10h30 Antonella Forlino (Univ. of Padova, Italy): From zebrafish collagen I analysis to the use of a zebrafish Osteogenesis Imperfecta models for drug screening

10h30-11h00 *Coffee break and sponsors booth (hall)*

11h00-11h30 Curtis Boswell (Hospital for Sick Children, Toronto): Linking motile cilia dysfunction to the etiopathogenesis of adolescent idiopathic scoliosis

11h30-12h00 Julien Vermot (IGBMC, France): Zebrafish as a model organism to study cilia function and dynamics

12h00-13h30 *Lunch (Cafeteria) and sponsors booth (hall)*

13h30-14h15 Frédéric SOHM (AMAGEN platform, France): RESAMA network: annual assesment

Thematic 2 : (Eco-)toxicology studies with fish models

14h15-14h45 François Brion (INERIS, France): Transgenic zebrafish models and their use in EDCs research

14h45-15h15 Invited speaker (coming soon)

15h15-15h45 Till Luckenbach (Helmutz Center For Environmental research , Germany): Chemical uptake in the zebrafish embryo model: potentially important biological parameters

15h45-17h00 *Coffee break and sponsors booth (hall)*

17h00-17h30 Xavier Cousin (Ifremer, France): 1, 2, 3... different generations, different effects – multigenerational toxicity assessment of environmental mixtures

17h30-18h00 Barbara Rizzi (TEFOR, France): High Content Screening strategy based on the 3D morphology of medaka fry brain

18h00-18h30 *Concluding remarks*

7th annual meeting of the EFOR network, March 8th March 2016

ZEBRAFISH WORKSHOP

organized by Emilie Dambroise, Marion Delous, Noémie de Crozé and Marc Léonard

ROOM

PRELIMINARY PROGRAM OF THE
7TH ANNUAL MEETING OF THE EFOR NETWORK
7TH - 8TH MARCH 2016
FIAP JEAN MONNET, 30 RUE CABANIS, 75014 PARIS

7th annual meeting of the EFOR network, March 8th 2015
Nematoda WORKSHOP
organized by Maïté Carré-Pierrat
ROOM

8th March 2016-Nematoda WORKSHOP

08h45-09h15 *Registration*

09h15-09h30 *Introduction*

Thematic 1: aging

09h30-10h00 Laurent Mouchiroud (EPFL, Switzerland): Mitochondria and aging: what can we learn from *Caenorhabditis elegans*

10h00-10h30 Hugo Aguilaniu (ENS Lyon, France): Molecular Links Between Longevity and Reproduction in *Caenorhabditis elegans*

10h30-11h00 *Coffee break*

Thematic 2: Models of human pathology

11h00-11h30 Julián Cerón Madrigal (Catalan Institute of Oncology, Spain): *Caenorhabditis elegans* to investigate a type of blindness and resistance to chemotherapeutic drugs

11h30-12h00 Christian Neri (IBPS, France): *Caenorhabditis elegans* for the study of biological resilience mechanisms to proteotoxicity in neurodegenerative disease

12h00-14h00 *Lunch (Cafeteria) and sponsors booth (hall)*

Thematic 3: Resource centre presentation

14h00-14h30 Christian Mougín (ECOSYS, France) : AgrobRC, the French national infrastructure "Agricultural Resources for Research"

Thematic 4: epigenetics

14h30-15h00 Chantal Wicky (Univ. Of Fribourg, Switzerland): Mi2 complexes as chromatin organisers of developmental programs

15h00-15h30 Sophie Jarriault (IGBMC, France)

15h30-16h45 *Coffee break and sponsors booth (hall)*

Thematic 5: Developmental and cell biology

16h45-17h15 Marie Delattre (ENS Lyon, France): Evolution of cellular traits in nematodes

17h15-17h45 Aymeric Bailly (CRBM, France): The nematode *Caenorhabditis elegans* for quantitative proteomics and FLIM-FRET approaches

17h45-18h30 *Concluding remarks*

PRELIMINARY PROGRAM OF THE
7TH ANNUAL MEETING OF THE EFOR NETWORK
7TH - 8TH MARCH 2016
FIAP JEAN MONNET, 30 RUE CABANIS, 75014 PARIS

8th March 2016-Drosophila WORKSHOP

Drosophila: a model organism for aging and associated pathologies

08h45-09h15 *Registration*

09h15-09h30 *Introduction by the organizers*

09h30-10h00 Hervé Tricoire (CNRS, France): Multiple issues in modelizing degenerative diseases in *Drosophila*

10h30-11h00 *Coffee break and sponsors booth (hall)*

11h30-11h45 André Klarsfeld (CNRS, France):

12h00-13h45 *Lunch (Cafeteria) and sponsors booth (hall)*

13h45-14h15 Véronique Monnier (Univ Paris Diderot, France): *Drosophila* as a model to study cardiac aging and disease

15h15-15h30 Allison Bardin (CNRS, France): Genome stability during aging in *Drosophila* intestinal stem cells

15h30-16h45 *Coffee break and sponsors booth (hall)*

16h45-17h15 Bruno Lemaitre (EPFL, Switzerland): Remote control of intestinal stem cell activity by haemocytes in *Drosophila*

18h15-18h30 Michaël Rera (Univ Paris Diderot, France):

18h30-19h00 *Concluding remarks*

PRELIMINARY PROGRAM OF THE
7TH ANNUAL MEETING OF THE EFOR NETWORK
7TH - 8TH MARCH 2016
FIAP JEAN MONNET, 30 RUE CABANIS, 75014 PARIS

8th March 2016-Non Human Primates WORKSHOP

08h45-09h15 *Registration*

09h15-09h30 *Introduction*

Thematic 1: Filovirus et Lyssavirus

09h30-10h00 Sebastien Calvignac Spencer (Robert Koch Institut, Germany): Ebola, les grands singes et les hommes

10h00-10h30 Sylvain Baize (CIRI & Institut Pasteur, France): Apport du modèle PNH pour l'étude de la physiopathologie et des réponses immunes au cours de la fièvre de Lassa

10h30-11h00 *Coffee break*

11h00-11h45 Nelly Ménard & Pascaline Le Gouar (CNRS, France): Impacts des épidémies à virus Ebola sur la dynamique et la génétique des populations de gorilles de plaine de l'ouest

11h45-12h00 Vincent Leblan (IRD, France): Impacts des politiques éco-sanitaires sur le futur des relations hommes-primates en Afrique de l'Ouest : cas d'Ebola

12h00-13h45 *Lunch (Cafeteria) and sponsors booth (hall)*

Thematic 2: HIV/SIV

13h45-14h30 Martine Peeters (IRD, France): Les primates non-humains : Réservoirs et Émergence de différentes souches de VIH

14h30-15h15 Roger Legrand (CEA, France): Intérêt du modèle PNH infecté par le SIV

15h15-15h30 Round table

15h30-16h45 *Coffee break and sponsors booth (hall)*

Thematic 3: HTLV/STLV

16h45-17h30 Antoine Gessain (Institut Pasteur, France): Les primates non-humains : Réservoirs et Emergences des HTLV et Foamy viruses

17h30-18h15 Renaud Mahieux (ENS Lyon, France): Utilisation d'un modèle de PNH naturellement infecté par le rétrovirus oncogène STLV-1

18h15-18h30 Round table

18h30-19h00 *Concluding remarks*

PRELIMINARY PROGRAM OF THE
7TH ANNUAL MEETING OF THE EFOR NETWORK
7TH - 8TH MARCH 2016
FIAP JEAN MONNET, 30 RUE CABANIS, 75014 PARIS

8th March 2016-Avian models WORKSHOP

08h45-09h15 *Registration*

09h15-09h30 *Introduction by the organizers*

Thematic 1 : Development

09h30-10h00 Valérie Castellani (Univ. of Lyon, France): The avian embryo as a model to study pediatric cancers

10h00-10h30 Xavier Morin (ENS, Paris, France): Centrosomes and asymmetric cell division of neural progenitors

10h30-11h00 *Coffee break and sponsors booth (hall)*

11h00-11h30 Andrea Munsterberg (Univ. of East Anglia Norwich, UK): miRNA and Myogenesis in chick embryos

11h30-12h00 Isabel Palmeirim (Faro University Portugal): Chick limb Patterning: From Signaling Gradients to Molecular Oscillations

12h00-14h00 *Lunch (Cafeteria) and sponsors booth (hall)*

Thematic 2 : Chick and Quail Genomics

14h00-14h30 Wesley C. Warren (Univ. School of Medicine St Louis, USA): Avian genome model use for hypothesis testing

14h30-15h00 Jérôme Gros (Institut Pasteur, France): Quails as genetic model organisms to study the dynamics of morphogenesis in amniotes

15h00-15h30 Benjamin Schusser (Univ. of Munich, Germany): Utilizing primordial germ cell technology to generate gene knockouts in chickens

15h30-17h00 *Coffee break and sponsors booth (hall)*

17h00-17h30 Mickael Orgeur (UPMC, France): Genome wide strategy in chick

17h30-18h00 Christine Letterrier (INRA, France): QTL for behavioral traits in lines of Japanese quail

18h00-18h30 *Concluding remarks*

PRELIMINARY PROGRAM OF THE
7TH ANNUAL MEETING OF THE EFOR NETWORK
7TH - 8TH MARCH 2016
FIAP JEAN MONNET, 30 RUE CABANIS, 75014 PARIS

8th March 2016-Marine Metazoa models WORKSHOP

08h45-09h15 *Registration*

09h15-09h30 *Introduction by the organizers*

09h30-10h00 Sarah Bouchemousse (Station Biologique de Roscoff, France): Secondary contacts of an alien tunicate with an interfertile native congener: a SNPs-based investigation in *Ciona* spp.
10h00-10h30 Invited speaker (coming soon)

10h30-11h00 *Coffee break and sponsors booth (hall)*

11h00-11h30 Jordi Garcia Fernandez (Univ. Of Barcelona, Spain): The amphioxus: gene regulation and brain evolution at the origin of Chordates
11h30-11h45 Discussion

12h00-13h45 *Lunch (Cafeteria) and sponsors booth (hall)*

13h45-14h15 Jenifer Croce (OBS Villefranche, France): The cradle of wnt genes: on the evolution of the wnt repertoires in metazoans
14h15-14h45 Patrick Lemaire (CRBM, France): A Trade-off Between Constraints on Embryo Geometry and on Regulatory Genome Evolution
Emmanuelle Renard (IMBE, France): Development of sponge "models" in evo-devo: state of the art. Available tools, interests and limits of *Oscarella lobularis* (Porifera)
14h45-15h15 *Homoscleromorpha*
15h15-15h30 Daniel Aldea (OBS Banyuls, France): Amphioxus illuminates the origin of the vertebrates' head

15h30-16h45 *Coffee break and sponsors booth (hall)*

16h45-17h15 Banafshé Larijani (Univ. of the Basque Country & IKERBASQUE, Spain): Nuclear Envelope Biogenesis and Female and Male Pronuclei Fusion Mechanisms in echinoderms
17h15-17h45 Nelly Godefroy (ISEM, France): Molecular networks regulated during a nutrition cycle in the carnivorous sponge *Lycopodina hypogea*
17h45-18h15 Invited speaker (coming soon)
18h15-18h30 Discussion

18h30-19h00 *Concluding remarks*

PRELIMINARY PROGRAM OF THE
7TH ANNUAL MEETING OF THE EFOR NETWORK
7TH - 8TH MARCH 2016
FIAP JEAN MONNET, 30 RUE CABANIS, 75014 PARIS

8th March 2016-Lepidoptera WORKSHOP

08h45-09h15 *Registration*

09h15-09h30 *Introduction by the organizers*

Thematic 1 : Interactions of Lepidoptera with plants

09h30-10h10 Paul-André Calatayud (ECGE, France): Effect of plant silica on plant-Lepidoptera interaction

10h10-10h25 selected talk, 15 min

10h25-10h40 selected talk, 15 min

10h40-11h10 *Coffee break and sponsors booth (hall)*

11h10-11h50 Heiko Vogel (MPI, Germany): Adaptation to the host-plant

11h50-12h05 selected talk, 15 min

12h05-12h20 selected talk, 15 min

12h20-14h00 *Lunch (Cafeteria) and sponsors booth (hall)*

Thematic 2: Interactions of Lepidoptera with insects

14h00-14h40 Fernando L. Cônsoli (University of São Paulo, São Paulo): Interactions with *Hymenoptera*

14h40-15h10 Annette Hertz (Institute for Biological Control, Darmstadt, Germany): Use of Trichogramma wasps against *Cydalima perspectalis*

15h10-15h25 selected talk, 15 min

15h25-15h40 selected talk, 15 min

15h40-16h40 *Coffee break and sponsors booth (hall)*

Thematic 3: Interactions of Lepidoptera with microorganisms

16h40-17h20 Salva Herrero (Univ. of Valencia, Spain): Interactions with viruses & bacteria

17h20-18h00 Marcus C. Stensmyr (Univ. of Agricultural Sciences, Sweden): Odors of microbes

18h00-18h15 selected talk, 15 min

18h15-18h30 selected talk, 15 min

18h30-19h00 *Concluding remarks*

PRELIMINARY PROGRAM OF THE
7TH ANNUAL MEETING OF THE EFOR NETWORK
7TH - 8TH MARCH 2016
FIAP JEAN MONNET, 30 RUE CABANIS, 75014 PARIS

8th March 2016-Arthropoda models WORKSHOP

08h45-09h15 *Registration*

09h15-09h30 *Introduction by the organizers*

Thematic 1: Patterning and segmentation

09h30-10h00 Siegfried Roth (Univ. Of Koeln, Germany): Evolution of dorsoventral patterning in insects

10h00-10h30 Michael Akam (Univ. Of Cambridge, UK): The Evolution of Arthropod Segmentation: A fresh look at the *Drosophila* paradigm

10h30-11h00 *Coffee break and sponsors booth (hall)*

11h00-11h30 Anna Gilles (CNRS, France): Cell dynamics during posterior elongation and segmentation in *Tribolium*

11h30-12h00 Johannes Schinko (CNRS, France): Posterior growth in *Tribolium*

12h00-14h00 *Lunch (Cafeteria) and sponsors booth (hall)*

Thematic 2: Evolutionary developmental biology

14h00-14h30 Abderrahman Khila (ENS Lyon, France): Development, selection, and species diversification

14h30-15h00 Alain Vincent (CNRS, France): Alary and Thoracic Alary-Related Muscles. Functions in flies, arthropods and beyond?

15h30-16h45 *Coffee break and sponsors booth (hall)*

Thematic 3: Genetic regulation

16h45-17h15 Alistair McGregor (Oxford, UK): How to build a spider: regulation of cell fate and segmentation in *Parasteatoda tepidariorum*

17h15-17h45 Xavier Franch (IBE, Spain): Genetic basis for the evolution of organ morphogenesis. The case of insect trachea.

17h45-18h15 Nicolas Gompel (LMU München, Germany): Regulatory evolution and the diversification of pigmentation patterns in *Drosophila*

18h30-19h00 *Concluding remarks*
